

## About the Data:

The dataset contains overall 3 individual years of Hotel Data these are 2018, 2019 & 2020, with two extra sheets named **Meal\_Cost** and **Market\_Segment**. Each year of Data contains the overall generated revenue and some of the other information like customer staying nights, their parking information and the % of discount provided, type of their customer, etc.

## The Goal:

- Is our hotel revenue growing by year?
- What trends can we see in the data?
- Suggestion for the Stakeholders

## Project Pipeline:

Let's get jumped in.....
